

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, January 30, 2008

PROPOSED AMENDMENTS TO THE
CAREER TECHNICAL EDUCATION FACILITIES PROGRAM REGULATIONS

PURPOSE OF REPORT

To request:

1. Adoption of proposed emergency regulatory amendments to the School Facility Program (SFP) Career Technical Education Facilities Program (CTEFP).
2. Authorization to file the proposed amendments on an emergency basis with the Office of Administrative Law (OAL).

BACKGROUND

At the January 2007 State Allocation Board (SAB) meeting, the Board adopted the current SFP CTEFP regulations on an emergency basis. Staff began receiving and processing applications for the first funding cycle of the CTEFP on October 31, 2007. Staff noted that some areas of the regulations and the *Application for Career Technical Education Facilities Funding Application* (Form SAB 50-10) require clarification based on numerous questions received from applicants. Staff presented proposed amendments at the January Implementation Committee meeting, which resulted in the proposed regulations being presented for adoption today.

AUTHORITY

Education Code (EC) Section 17078.72(k) authorizes the Board to adopt the current SFP CTEFP regulations on an emergency basis that would be effective for no more than 12 months. Secondly, the Board is authorized to promulgate permanent regulations pursuant to this Section.

STAFF COMMENTS

Grant Determination

Staff proposes an amendment to Regulation Section 1859.193 stating that equipment purchases are eligible for CTEFP funding if purchased on or after May 20, 2006, which was the effective date of the law. Staff also proposes to amend the definition of a qualifying SFP project for modernization in Regulation Section 1859.193.1 to state that the contracts for the modernization project were executed on or after May 20, 2006.

Funding Order

Staff proposes amendments to Regulation Section 1859.196 in order to further define the funding order process when insufficient funds remain to fully apportion a CTEFP project in all funding cycles. These regulations provide specific direction on how to process applications when insufficient funds remain to apportion a project within a Service Region and for the last project in any funding cycle.

STAFF COMMENTS (cont.)

SAB Forms 50-04, 50-05 and 50-10

In addition, Staff proposes amendments to the Form SAB 50-10 to clarify instructions for the applicants and provide consistency between the regulation text and the form. Staff proposes adding required documents in order to ensure sufficient information is provided with the application to recommend funding to the Board. The additional documents include the Division of the State Architect Plan Approval letter, a detailed cost estimate of construction, and an itemized list of requested equipment. Amendments corresponding to the proposed regulation text are also made to the Certification section of the form.

Upon adoption by the Board, the OPSC will submit these regulations to the OAL on an emergency basis, which is specifically authorized in law. Staff anticipates having the new regulations in effect in advance of the final file date for the second CTEFP funding cycle, which is April 30, 2008.

RECOMMENDATIONS

1. Adopt the proposed amendments to the regulations as shown on Attachment A and begin the regulatory process.
2. Authorize the Staff to file the proposed regulations shown on Attachment A with the OAL on an emergency basis.

This Item was approved by the State Allocation Board on January 30, 2008.

Section 1859.196. Career Technical Education Facilities Program Funding Order.

- (a) In the first funding cycle, the Board shall fund eligible Career Technical Education Facilities Projects as follows:
 - (1) Approved Applications for Career Technical Education Facilities Project Funding shall be sorted by Service Region.
 - (2) Within each Service Region, approved applications will be ranked from highest to lowest according to the numerical score for the applicant's Career Technical Education Facilities Program application pursuant to Education Code Section 17078.72(i).
 - (3) The locale of each project shall be identified as Urban, Suburban or Rural.
 - (4) The Board shall apportion funds within each Service Region to the highest ranked project in each locale. In order to continue this funding process, one project from each locale must be apportioned. If there are no applications in a given locale(s), projects will be apportioned in the remaining locale(s).
 - (5) The process will continue until the applications or funds are exhausted within each Service Region as prorated pursuant to Section 1859.195. If an application cannot be fully apportioned because insufficient funding remains within the Service Region, the application shall be considered for funding pursuant to Section 1859.195(a)(2). If there is insufficient funding under Section 1859.195(a)(2), the applicant may either accept the available funding within the Service Region as the full and final apportionment for the project or refuse funding entirely. If funding is refused, the Board shall consider funding the next project eligible for an apportionment pursuant to this Section.
 - (6) In the event two or more applications within a Service Region have the same career technical education plan score and are in the same locale, the applicant with the highest total points in all weighted areas identified in Education Code Section 17078.72(j) will be funded first.
- (b) In the second funding cycle, the Board shall fund eligible Career Technical Education Facilities Projects as described in (a) until the applications or funds are exhausted within each Service Region or until the conditions in (1) and (2) are met:
 - (1) Funds remain after all applications in a given Service Region have been apportioned.
 - (2) Approved Applications remain in other Service Regions because the requests exceed the funds allotted to the Service Region(s) in Section 1859.195(b). If an application cannot be fully apportioned because insufficient funding remains within the Service Region, the application shall be considered for funding pursuant to (c). If there is insufficient funding under (c), the applicant may either accept the available funding within the Service Region as the full and final apportionment for the project or refuse funding entirely. If funding is refused, the Board shall consider funding the next project eligible for an apportionment pursuant to this Section.
- (c) If (b)(1) and (b)(2) are met in the second funding cycle, the remaining available career technical education facilities funds shall be pooled and apportioned to the highest ranked project in each locale regardless of Service Region. One of each locale must be accounted for before a locale is repeated.
- (ed) For the third and any subsequent cycles, the Board shall apportion funds regardless of Service Region.
 - (1) Funds shall be apportioned to the highest ranked project in each locale. In order to continue this funding process, one project from each locale must be apportioned. If there are no applications in a given locale(s), projects will be apportioned in the remaining locale(s).
 - (2) The process will continue until the applications or funds are exhausted, whichever comes first.

(3) In the event two or more applications have the same career technical education plan score and are in the same locale, the applicant with the highest total points in all weighted areas identified in Education Code Section 17078.72(j) will be funded first.

If ~~a~~the last Career Technical Education Facilities Project within any funding cycle cannot be fully apportioned because insufficient funding is available, the applicant may either accept the available funding as the full and final apportionment for the project or refuse funding entirely. If funding is refused, the Board shall consider funding the next project eligible for an apportionment ~~based on the above funding priority mechanism~~ pursuant to this Section. ~~If an applicant refuses funding, the application shall automatically carry over to the subsequent cycle or the applicant may request that the application be returned.~~

For any Career Technical Education Facilities Project not apportioned ~~under the funding mechanism described above~~ pursuant to this Section, the application shall ~~automatically carry over to the subsequent cycle or the applicant may request that the application~~ be returned to the applicant. A Career Technical Education Facilities Project returned to the applicant may be resubmitted during a subsequent application acceptance period identified in Section 1859.191, provided the application meets the eligibility criteria in Section 1859.192.

APPLICATION FOR FUNDING SCHOOL FACILITY PROGRAM

SAB 50-04 (REV 10/07/01/08)

- Written confirmation from the district's career technical advisory committee indicating that the need for vocational and career technical facilities is being adequately met within the district consistent with Education Code Sections 51224, 51225.3(b), 51226.1, and 51228(b), and 52336.1.

Prior to acceptance of an application for funding that includes a financial hardship request, the district must have its financial hardship status "pre-approved" by the Office of Public School Construction (OPSC). To apply for a financial hardship "pre-approval", consult the OPSC Web site at www.opsc.dgs.ca.gov.

If the district is requesting New Construction funding after the initial baseline eligibility was approved by the Board and the district's current CBEDS enrollment reporting year is later than the enrollment reporting year used to determine the district's baseline eligibility or adjusted eligibility, the district must complete a new Form SAB 50-01 based on the current year CBEDS enrollment data, and submit it to the OPSC with this form. In addition, if the district's request is fully or partially based on eligibility derived from an Alternative Enrollment Projection, the district must update the Alternative Enrollment Projection to correspond with the CBEDS enrollment data for the current year. A small district with 2,500 or less enrollment as defined in Section 1859.2 will not have its eligibility reduced for a period of three years from the date the district's baseline eligibility was approved by the Board as a result of reduction in projected enrollment.

For a list of the documents that must be submitted in order for the OPSC to deem a funding request for new construction or modernization complete and ready for OPSC processing, consult the SFP handbook and other information located on the OPSC Web site at www.opsc.dgs.ca.gov.

For purposes of completing this form for a Final Charter School Apportionment, a charter school shall be treated as a school district.

SPECIFIC INSTRUCTIONS

The district must assign a Project Tracking Number (PTN) to this project. The same PTN is used by the OPSC, the DSA and the CDE for all project applications submitted to those agencies to track a particular project through the entire state application review process. If the district has already assigned a PTN to this project by prior submittal of the P&S to either the DSA or the CDE for approval, use that PTN for this application submittal. If no PTN has been previously assigned for this project, a PTN may be obtained from the OPSC Web site at www.opsc.dgs.ca.gov "PT Number Generator."

1. Type of Application

Check the appropriate box that indicates the type of School Facility Program (SFP) grant the district is requesting for purposes of new construction, modernization, a separate design and/or site apportionment, site apportionment as an environmental hardship or New Construction (Final Apportionment). If the application is for the modernization of school facilities and includes facilities that are eligible for an additional apportionment pursuant to Section 1859.78.8, include a site diagram with this application that specifies the age of each facility eligible for modernization. The diagram should also indicate the date of its original DSA plan approval and the date the facility received its prior modernization apportionment. If known include the project modernization number on the diagram. If the application is for modernization of a California School for the Deaf or Blind, the CDE shall check the box identified as Modernization of California Schools for the Deaf/Blind. If the request is for a separate design apportionment, the CDE shall check the appropriate box. If the eligibility for this project was established as a result of the need for new
